COMENTARIO SECTOR DE ACUICULTURA Y PESCA, AGEXPORT

“La oficina del Sector de Acuicultura y Pesca considera importante que las plantas de procesamiento de productos pesqueros asociadas a este Sector, dispongan como documento de referencia de la Guía COVID-19 creada por la Global Aquaculture Alliance (GAA) y publicada el pasado 21 de julio.

Esta guía puede ser de gran utilidad para las plantas para fortalecer los protocolos sanitarios anti COVID-19 implementados en cada una de ellas, no solo para evitar o minimizar el contagio de esta enfermedad en sus trabajadores, sino también para evitar la contaminación del virus del COVID-19 en las superficies de los empaques y de los productos procesados en ellas.”

GAA Creates COVID-19 Guidance Document for Seafood Processing Facilities / July 21, 2020

Our team at Best Aquaculture Practices (BAP) has created a guidance document for aquaculture facilities in the age of COVID-19. If you have any questions feel free to contact our Corporate Responsibility Manager, Avery Siciliano. Additionally, a complimentary COVID-19 guidance poster can be found here for printing and sharing. Join the conversation about this on Connect to engage with other facilities.

Protecting Employees at Seafood Processing Facilities during COVID-19

Introduction

The Global Aquaculture Alliance (GAA) is committed to advancing employee health and safety and dedicated to supporting Best Aquaculture Practices (BAP) certified facilities during the COVID-19 pandemic. The following guidance is intended to act as a resource for seafood processing facilities seeking best practices to keep their employees healthy and limit the exposure to and the spread of COVID-19. How to Safely Wear and Take Off a Cloth Face Covering

Accessible: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html>

WEAR YOUR FACE COVERING CORRECTLY

- Wash your hands before putting on your face covering
- Put it over your nose and mouth and secure it under your chin
- Try to fit it snugly against the sides of your face
- Make sure you can breathe easily
- Do not place a mask on a child younger than 2

USE THE FACE COVERING TO HELP PROTECT OTHERS

- Wear a face covering to help protect others in case you're infected but don't have symptoms
- Keep the covering on your face the entire time you're in public
- Don't put the covering around your neck or up on your forehead
- Don't touch the face covering, and, if you do, clean your hands

Identify measures to protect workers and reduce the risk of transmisión
